

INTERNAL TRAINING MATERIAL

Chi Cha San Chen

Brand Talking Points

Quality. Precision. Recognition.

Obsessive Consistency

Every Cup, Identical

Every cup tastes exactly the same — not approximately, exactly. The result of controlling every variable.

- | | |
|----------------------------|---|
| ● Water Quality | Carefully managed for soft vs. hard water — each affects flavor extraction differently. |
| ● Brew Temperature | Precisely maintained for each tea type, every time. |
| ● Tea Leaf Leveling | Leaves are leveled inside the teapresso machine so every leaf is exposed to the same water flow, pressure, and brew time. |
-

Obsessive Consistency

Continued

- | | |
|--------------------------------------|--|
| ● 0.3mg Tolerance | All raw materials including sugar are measured to within 0.3mg. Every ingredient, every time. |
| ● Half-Moon Ice Cubes | Engineered for a consistent melt rate so the drink doesn't dilute unevenly between first and last sip. |
| ● Monthly Machine Calibration | All equipment is recalibrated monthly. Drift is caught before it ever reaches the cup. |
| ● Daily Tea Tasting | Every day, tea is tasted to catch any deviation in raw material quality before it reaches customers. |
-

Ingredient Integrity

Where quality starts — before the cup

High-Altitude Mountain Farms

Grown at elevation where slower growth produces more complex flavor compounds.

Hand-Harvested · ■■■■

Terrain demands hand-picking. Only the youngest shoots are selected using the "one bud, two leaves" method — the gold standard in premium tea harvesting.

Signature Green Tea

A standout proprietary blend — the embodiment of the brand's commitment to sourcing rare, distinctive ingredients.

Teapresso Machine

Quality Control

The teapresso machine operates at a precisely calibrated golden ratio — the specific combination of time, temperature, and movement that produces Chi Cha San Chen's signature texture and clarity.

PROPRIETARY RATIO

The exact parameters are proprietary
— unique to Chi Cha San Chen.

REPLICABILITY

Central to delivering identical quality
across every location, globally.

ITI Award Recognition

The Michelin of Food

The International Taste Institute (ITI) is the global benchmark for F&B excellence. Products are judged blind by a panel of international chefs and sommeliers.
